SUMMARY

Hi, I'm Dilip Kumar Anjana, a dedicated data analyst with a Bachelor's in Computer Science, specializing in AI and Machine Learning. I've worked at IBM as a Data Analyst and also at E-Cell, IIT Bombay. I hold certifications like the Google Data Analytics Professional Certificate and Python 101 for Data Science. I'm skilled in data analysis, SQL, data visualization, statistical analysis, and programming languages like Python and R. I'm passionate about using data to make smart decisions and improve business outcomes. I'm also proficient in problem-solving, teamwork, and love learning new technologies. I'm eager to bring my expertise to a role where I can make a meaningful impact and contribute to organizational success.

EXPERIENCE

Chegg Expert in Advanced Math

Chegg India

12/2022 - Present Remote

Chegg: Online education platform providing textbooks, homework help, and tutoring services for students.

- Solved over 100+ advanced math questions on Chegg, demonstrating adept time management within a 2-hour limit and quick decision-making under a 10-minute acceptance window.
- Proficient in problem-solving, consistently providing clear, step-by-step solutions to complex mathematical problems.

Data Analytics

IBM

06/2023 - 08/2023 Remote

Case Study

- As a Data Analyst at IBM, I undertook a challenging project analyzing the Superstore data of the US. Leveraging statistical tools, I extracted insights, and presented valuable business recommendations based on the analysis.
